SUBMISSION STATISTICS FOR FISCAL YEARS 2024, 2023, & 2022

Both the proposal count and dollars requested are distributed across departments, colleges, and institutes by Allocation of Credit percentages provided by project personnel during the internal AGrants routing process. Thus project dollars are divided and distributed across all units by allocation. Some proposal counts, therefore, will appear as fractions. Year-end annual data for the past 2 fiscal years is provided for comparison.

Both the award count and values are distributed across departments, colleges, and institutes by Allocation of Credit percentages provided by project personnel during the internal AGrants routing process. Thus project dollars are divided and distributed across all units by allocation. Some award counts, therefore, will appear as fractions. Year-end annual data for the past 2 fiscal years is provided for comparison.

AWARD STATISTICS FOR FISCAL YEARS 2024, 2023, & 2022

Both the award count and values are distributed across departments, colleges, and institutes by Allocation of Credit percentages provided by project personnel during the internal AGrants routing process. Thus project dollars are divided and distributed across all units by allocation. Some award counts, therefore, will appear as fractions. Year-end annual data for the past 2 fiscal years is provided for comparison.
